

# Save Money Today with RecycleTomorrow

## A Brighter Tomorrow Starts Today

» Properly disposing of your outdated equipment has never been simpler, eco-friendlier, or more affordable. RecycleTomorrow is a revolutionary program that mitigates both environmental and data liabilities with the stability of a fixed-cost and contracted asset disposition solution.

By purchasing a RecycleTomorrow contract in tandem with new product purchases, you can eliminate the future costs and frustrations of asset disposal. RecycleTomorrow allows you to reduce your dependency on unbudgeted resources and ensure compliance with all applicable Federal, State, and Local statutes—including Sarbanes-Oxley, HIPAA, Gramm-Leach-Bliley, and environmental laws.

RecycleTomorrow offers all the benefits of a regular GovConnection Asset Disposition Plan, but also includes:

- **Capitalization**—By pre-paying for asset disposal using the RecycleTomorrow program, you can save money by capitalizing the cost of the disposal up front, rather than just incurring expenses at the time of disposal.
- **Logistics**—There are no charges for logistics using RecycleTomorrow, provided you meet minimum pickup quantities (must retain ownership of RecycleTomorrow-registered products for at least 2 years). This is a huge advantage over traditional programs, where logistics expenses typically exceed disposal costs.
